Summary of Position

The Podiatric Physician will join an established practice to provide the highest standard of care as we increase throughput and add value. This physician will be responsible for providing skillful, compassionate care to patients with a variety of foot and ankle conditions.

Duties & Responsibilities

- Provide state of the art podiatric care in a clinical setting
- Examine patients, review their medical histories, and listen to their concerns to diagnose lower extremity conditions and abnormalities
- Develop and execute appropriate plans of care using a variety of medicine, tools, technology, and techniques
- Provide education, advice, and instructions to patients and their families about their specific plans of care as well as general podiatric health
- Become a trusted source of information and treatment
- Maintain medical records and complete other medical documentation in accordance with state regulations as well as internal policy
- Prescribe medication as permitted by the Board of Podiatric Medicine
- Participate in continuing education as required by the Board of Podiatric Medicine

Qualifications & Experience

- Degree of Doctor of Podiatric Medicine with relevant certification
- Required licensure and certification as outlined by the Board of Podiatric Medicine
- DEA registration or eligibility
- Strong communication skills, compassion, and a positive attitude
- Desire to provide a high standard of care while building a healthy relationship with the patient base and community
